

INDIA'S BEST DISTANCE LEARNING INSTITUTES

by Team Careers360

Being the pioneers in the ranking of Distance Education institutes in the country, this year we tried to fine-tune our parameters along with the weightage accorded to each one of them to bring you even closer to the true standing of the best Distance Education universities/institutes in the country. Powered by its huge student-base and infrastructure, Indira Gandhi National Open University (IGNOU) retains its numero uno position, though a major reason for that is its unique status as the only central open university in the country. YCMOU, Nashik; IMT-CDL, Ghaziabad and SMU, Gangtok occupy the next band in spite of being very different in character. While YCMOU, the state open university of Maharashtra, is a giant like IGNOU specialising in delivering niche programmes for several not-so-far-reached segments, IMT-CDL (a private institution) is largely focussed on delivering management programmes leveraging on its strong lineage in the field and innovative methods of delivery. Following close on its heels is SCDL, Pune, another private player known for its MBA equivalent programme, which has diversified significantly in recent times. Go ahead, explore the best in distance education the country offers!
